Energy security, environmental degradation, soil & water loss, and climate change are the current and future grand challenges of the world. Chemical, energy and environmental engineering contribute immensely to these grand challenges and are important to the economic and ecological sustainability of the world. CESEE 2024 is an international forum for the presentation of technological advances and research results in the fields of energy science and environmental engineering, which is also going to highlight and discuss topics on chemical, energy and environmental engineering in a number of formats like keynote speeches, invited lectures, technical sessions and posters.

**Publication**

After a careful reviewing process, all the registered and presented papers will be included in the *CESEE 2024 Conference Proceedings*, which will be published by [IOP Conference Series: Earth and Environmental Science](https://iopscience.iop.org/journal/1755-1315), and submitted to Engineering Village, Scopus, Thomson Reuters (WoS) and other databases.

#CESEE2023 Proceedings has been published in IOP Conference Series: EES-Volume 1204, and indexed by Scopus & CPCI-S.

**Committee**

**General Chair**  
Jan Baeyens, Beijing University of Chemical Technology, China\KU Leuven, Belgium

**Honorary Chair**  
Valentina Busini, Polytechnico of Milan, Italy

**Conference Co-Chair**  
Germán Mazza, PROBIEN Institute, CONICET and University of Comahue, Neuquén, Argentina  
Haijia Su, Beijing University of Chemical Technology, China  
Martin Schiemann, Bochum University, Germany

**Program Co-chair**  
Foo Keng Yuen, Universiti Sains Malaysia, Malaysia

**Publication Chair**  
Muhammad Rahman, Wichita State University, USA  
Panyue Zhang, Beijing Forestry University, China

**Organizing Committee**  
Ahmad Zuhairi Abdullah, Universiti Sains Malaysia, Malaysia

**Call for Papers**

**Topics**

- Chemical Science and Engineering
  - Environmental Chemicals
  - Energy Chemical Engineering
  - Green Chemical Technology
  - Emission Reduction, Chemical Process Intensification
  - Biological Chemical and Technology
- Energy Science and Technology
  - Solar Energy
  - Hydrogen energy
  - Nuclear Energy Engineering
  - Thermal Engineering
- Environmental Science and Engineering
  - Water Resources Management
  - Atmospheric Environment
  - Environmental Pollution & Management
  - Ecological Environment
  - Sustainable Development
  - Environmental Analytical Methods

**More Topics:** [https://www.cesee.org/cfp.html](https://www.cesee.org/cfp.html)

---

**Paper Submission**

All the submissions should be formatted according to the template ([Word Template](#) \ [LaTeX Template](#)). Please submit the manuscript via [Morressier Submission System](#).

**Important Date**

- **Submission Deadline:** December 20, 2023
- **Notification of Acceptance:** January 20, 2024
- **Registration Deadline:** February 20, 2024
